## Summary

I am a Mobile Application Developer with over 1 year of hands-on experience in designing, developing, and deploying Flutter-based cross-platform Android and iOS mobile applications. I work as part of a project developer team, where I contribute to building scalable and responsive mobile solutions using modern development practices. I have successfully completed certified training in Mobile Application Development through NAVTTC (National Vocational and Technical Training Commission) and gained foundational Flutter development knowledge through Google Cloud. During my internships at Internee.pk and InternnCraft, I collaborated on real-world mobile projects, focusing on UI/UX design, API integration, and backend connectivity using Firebase services. I thrive in team environments and have consistently delivered high-quality work in fast-paced, agile development settings.

## Education

**BS Information Technology**  
**2022 — 2025**

## Courses

**Mobile App Development , National Vocational & Technical Training Commission Pakistan**

**May 2023 — August 2023**

**Sayalni Mass It Traning (SMIT) Hyderabad**

**Flutter Developer**

**Feb 2024-Aug 2024**

## Internships Experience

Certificate :

### Flutter developer , Remote based task

March 2025-Continue

I working as Flutter Projects Remotely with Teamwork

### Flutter Developer, Remotely

March 2023 — May 2024

I completed a two-month internship at Internee.pk, where I worked on a real-world Flutter project. During this time, I was involved in several key areas, including UI design, API integration, and Firebase implementation. I developed and designed user interfaces using Flutter, ensuring they were both visually appealing and user-friendly. I also integrated various APIs to enable seamless data retrieval and interaction within the app.

Additionally, I used Firebase

for authentication and backend services, gaining practical experience with its features. This internship allowed me to strengthen my Flutter development skills and contribute to a live project, enhancing my understanding of mobile app development.

### Flutter Interne

June 2024 — August 2024

I successfully completed an internship at InternnCraft, where I worked on a Flutter project and gained valuable hands-on experience.

During the internship, I focused on creating **\*\*flexible UI**

**designs\*\***, ensuring the user interface was adaptable across various screen sizes. I also worked on

**\*\*API integration\*\***, learning how to fetch and display real-time data from external sources. Additionally, I gained expertise in

**\*\*Firebase\*\***, utilizing it for authentication, database management, and backend services. I also explored

**\*\*state management\*\*** in Flutter, implementing efficient solutions to manage app states and ensure smooth user interactions.

This internship helped me strengthen my Flutter development skills and understand how to build scalable, high-performance mobile apps.
